

3DN Strategic Plan

2023-2026

Our Vision

The highest standard of health and wellbeing for people with cognitive disability.

Our Mission

To improve the health and wellbeing of people with cognitive disability through high-quality research, education and training, consultancy, and clinical work.

Our Guide

Our Work

Academic Excellence

- Strengthen opportunities for staff to conduct innovative research and deliver quality education by providing targeted training opportunities
- Identify opportunities for operational excellence in delivery of research and education
- Expand research and education about the mental health needs of people with cognitive disability
- Prioritise research and education about whole of health needs of people with cognitive disability, prioritising services systems, policy, and health literacy
- Recruit and develop emerging leaders in cognitive disability research and education

Innovation & Engagement

- Establish strategies and partnerships to expand and innovate in intellectual disability health education
- Strengthen relationships with national and international institutions with a focus on health and wellbeing of people with cognitive disability
- Grow community relationships to support enhanced involvement of people with lived experience in our work
- Facilitate knowledge exchange by increasing the visibility of our research and education

Social Impact

- Advocate for and implement inclusive and accessible ways of working
- Provide sector leadership and promote national action by presenting expert advice to government, policymakers, and sector and service leads about the health and wellbeing of people with cognitive disability
- Enhance relationships with disability, health and other service sectors to drive research impact
