

We are looking for Australian men

Take a survey and make a difference

Make a difference in the lives of adults with autism

by completing a **questionnaire** about your health and wellbeing.

What is autism?

Autism Spectrum Disorder (ASD) is a lifelong neurodevelopmental disorder affecting 1 in 100 Australians.

Who we are looking for

Male adults over 25 years without autism.

How to help

- Choose to complete the questionnaire online or on paper (2-3 hours)
- You may withdraw your participation any time.
- Entirely voluntary and of good will (no pay).

The study

We are comparing the lives of adults without autism to adults with autism. Our aim is to improve opportunities and health care for adults with ASD transitioning to post-school life.

Who are we?

Researchers at The University of New South Wales and the Autism CRC. The Cooperative Research Centre for Living with Autism (Autism CRC) is the world's first national, cooperative research effort focused on autism across the life span.
